

VGXI Capabilities

Solutions for Every Stage of Biopharmaceutical Development

VGXI is rooted in over two decades of manufacturing expertise, leading the way in revolutionizing the biopharmaceutical industry. Our commitment to delivering manufacturing excellence spans all scales and stages, from pre-clinical research to full-scale commercial production.

With a comprehensive plasmid DNA portfolio and a full spectrum of additional service capabilities, VGXI is your trusted partner in advancing next-generation therapeutics with quality, reliability, and speed.

PLASMID DNA MANUFACTURING

- Pre-clinical
- Highly Documented (HD)
- GMP

COMMERCIAL SERVICES

- Analytical Testing
- GMP Master Cell Banking
- Process Development (upstream and downstream optimization)
- Real-time & Accelerated Stability
- Testing (bulk and drug product)
- Tech Transfer
- GMP Fill/Finish

ADDITIONAL / CUSTOM SERVICES

- Rapid TAT Manufacturing
- Antibiotic-free Platforms:
 - NTC HyperGRO™
 - Nanoplasmid™
- CMC Support
- Assay Development
- Process Validation Services
- On-site Cryo storage

VGXI's quality is exemplified through our robust Quality System, which encompasses every facet of our business to maintain strict compliance with FDA, EMA and other global regulatory standards.

About VGXI

Backed by two decades of production and regulatory expertise, VGXI is the ideal CDMO partner to support every step of your product pipeline from early development to market launch. Our dedicated team and state-of-the-art facilities ensure that your experience with VGXI exceeds expectations with unrivaled scale, reliability, and excellence. VGXI doesn't just meet today's demands, we're future-proofing demand for tomorrow's innovations and setting new industry benchmarks with the world's largest plasmid DNA manufacturing capacity.
